## Dual Purpose Suction Mount

- 60mm suction mount pad
- Attach on both CURVED and FLAT surfaces
- Patented washable high resilience jelly pad
- Action-proof holding strength
  
- Super compact
- Super light
- Compatible with all GoPro Hero cameras
- Additional converter to 1/4" tripod screw

## Dual purpose - For curved and flat surfaces

Unlike regular suction cups, the BLACKBOLT BA-10 also sticks on curved surfaces. It means you can put it on and off your helmet after filming your ride. You can forget about permanent stickers and switch your filming angles in a flash thanks to the quick snap feature of the BLACKBOLT BA-10.

curved surface

## Action-proof suction power

Blackbolt BA-10 and its patented high-resilience sticky pads are twice more powerful than standard pads. It can swing a 15lb bowling ball, but also resist the vibrations happening during high speed action.

WORLD'S FIRST UNIVERSAL SUCTION CUP FOR HELMET

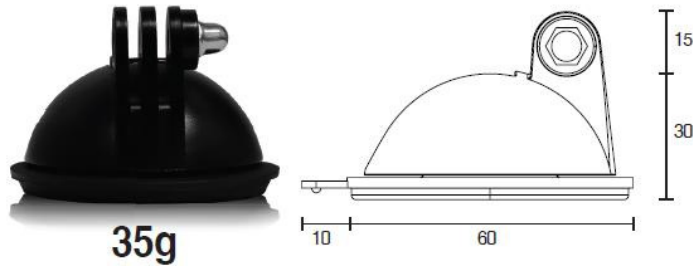

# BLACKBOLT BA10

Compatible with :

GoPro Hero series, ISAW actioncam series.

## Super small and light

It's even smaller than your camera and weighs only 35g but its adhesive power is peerless. Easy to carry around and simple to use.

WORLD'S FIRST UNIVERSAL SUCTION CUP FOR HELMET

## BLACKBOLT BA10

Compatible with :  
GoPro Hero series, ISAW actioncam series.

## Restored by washing

Adhesive strength can fail you as the suction pads get dirty but not with BLACKBOLT BA-10. Our jelly pad is easily washable and its suction power can be restored with simple tap water and a little soap. Keep it as strong as new just by washing it.
