Precautions

Follow these tips to preserve the operational lifespan of your Digital Media Player:

- It is recommended that you allow the battery to fully charge before using the device for the first time.
- Do not recharge unattended for longer than 3 hours.
- If you use a Power Adaptor (Not included), Power Adaptor current is: 5V, 500 mA.
- Do not hang the player by its earphones or cables.
- Never force any cable connectors into the ports of your Digital Media Player or computer. Always make sure that your cable connectors are identical in shape and size before attempting to connect.
- When disconnecting your Digital Media Player from a computer, use the Safely Remove Device function on your computer. Do not disconnect your Digital Media Player while transmitting data.

Warning

- Do not use this Digital Media Player in extreme temperatures. Keep away from extreme hot, cold, dry, or damp areas. Also keep away from water, fire, and radiation.
- Do not disassemble your Digital Media Player.
- Do not allow young children to use your Digital Media Player unsupervised.
- Do not install foreign software onto your Digital Media Player.
