edge 52

Light. Thin. Luxury.  
Free to charge what you like

# Our globally patented **eUSB** technology helps you outpace competitors!

At ROMOSS, we offer a perfect solution! Powered by internally patented technology, the eUSB device detects voltage automatically and can charge a diverse range of digital products, such as smartphones, tablet and notebook computers, ultrabooks, MP3 and MP4 players, PSP's and digital cameras. Unrivalled in the industry, the technology brings you ease and convenience you have never had before.

(Patent No. 201120289581.7)

The Romoss products which use the eUSB technology are:
