

MUSIC  
NEVER  
LOOKED  
THIS GOOD

We create products that combine quality, design and technology in perfect balance. And we do it because we have a compulsive desire for perfection – it is part of our DNA to produce only the very best products, at affordable prices. We believe that quality high-tech products that are beautiful and affordable will sell themselves. We hope that you will choose to be our partner in this success, as a member of our dealer network.

- Dimensions: 338 x 242 x 128 mm
- Weight: 1450 gram

WATER RESISTANT  
WIRELESS MUSIC  
USB-POWERBANK

**SPLASH**  
X-3808

**Waterproof**

*Outdoor Boombox with Powerbank*

Finally, a music system specially designed for the outdoor lifestyle. The new SPLASH (X-3808) is completely rain and splash-proof, certified to a water-proof (ingress) rating of IPX4. It means that you can take and share your music practically anywhere. Music that you can stream wirelessly from your smartphone or tablet, or play MP3 music from a USB-Pendrive, or use the front AUX-input jack (using the supplied line-in cable) to connect to any device with a headphone jack. Or use the built-in FM-PLL tuner for your favorite radio stations as well. But most importantly, we built in a 4000 mAh advanced lithium battery powerbank, which powers the unit for an incredible 10-12 hours of continuous music, or which can be shared to re-charge any external USB device (eg. It can fully re-charge an Android or Apple smartphone more than 2 times from zero to 100%).
